

ONLINE EDUCATION FOR AUTO WORKERS!

The Unifor-McMaster University Labour Studies Program is specially designed for Unifor auto workers. As a Unifor member working for GM, Ford or FCA, you can take free online education from the comfort of your own home, with fellow auto workers from around the province, while obtaining a university certificate. Why not try a course? There is no cost to our members who attend, as fees are covered through a special funding arrangement with Unifor.
